Kind Attention: Mr./Ms.

Dear Sir/Madam,

With reference to the enquiry received, we are pleased to submit our offer for the ELGi Rotary screw air compressor with its technical specification.

ELGi Screw compressors are precision designed and carry the promise of reliable performance and ease of maintenance for each component in the unit. Our compressors meet the international CE standard, ASME and UL, and full fill the performance and quality criteria of global companies.

The added values of this new generation compressor are its lower cost of ownership, energy efficiency, lower operating costs, compact design, high operator safety and minimal sound levels. In addition to the above, our EG series of screw compressors provide Report Generation options and remote monitoring.

The compressor comes in aesthetically appealing packaging and is easy to install.

ELGi Screw compressors belong to a highly successful range of screw compressors from ELGi with a large customer base across the world for a wide variety of applications

Why ELGi?

- **Single source for all your compressor needs.**

- A market leader and Asia's largest manufacturer of air compressors, based out of Coimbatore, India with 50+ years of expertise in design, manufacturing, sales and service of a wide range of compressors and related accessories like air dryers, variable speed drives, down-stream filters and air receivers.
- Over 2 million ELGi products are powering businesses in industries such as mining, defense, transport, pharmaceuticals, power, oil, railways, chemical, textile, printing, ship-building, paper manufacturing, electronics, telecommunications, medical, food and beverage, and plastics.
- Global footprint with off-shore manufacturing bases in Rotair SPA - Italy, Pattons Inc – USA, Pulford Air & Gas - Australia and sales presence in over 100 countries.

RECOMMENDED LAYOUT

To achieve best performance levels, the following layout is recommended for

Oil-Lubricated Compressed Air Supply System

Oil-Free Compressed Air Supply System

RECOMMENDED COMPRESSOR PLACEMENT – BASIC:

1. The entrance to the compressor room should be high enough and wide enough to get the compressor in and out.
2. Leave minimum 1 m space for compressors <75 kW and 1.5 m space for >75 kW, around the compressor for safe and proper inspection, cleaning and maintenance activities. (Fig. left below)

ELGI EQUIPMENTS LIMITED

Branch Office: ELGI Equipments Ltd. Marol Co-op Industrial Estate Ltd. Plot No. 48, J.B. Nagar Post Mathurdas Vassanji Road Near Sakinaka Andheri East
MUMBAI Maharashtra 400 059
India

W: www.elgi.com | **Toll-Free No.:** 18004253544 | **CIN No.:** L29120TZ1960PLC000351

3. Leave minimum 2 m space above the compressor for the hot air to flow away from the compressor. (Fig. right above) (Air Cooled)
4. Maintain the room temperature with proper ventilation (The compressor room temperature should not be above 5°C from ambient temperature). Higher suction temperatures would result in reduced oil life due to higher discharge oil temperature (DOT).
5. Ensure the compressor is protected against direct sunlight and rains.
6. The compressor base should make 100% contact directly with the floor. Do not place the compressor on the wooden pallet supplied with the compressor.

NOTE: Installation & Commissioning will be done only after achieving above recommendations.

- The benefits of this warranty shall be to the first owner or commercial user only and cannot be transferred.

EXCLUSIONS

- Electricals (except motors and controller), rubber parts, seals, and consumables like air filter, oil filter, separator element, lubricant and similar wear and tear parts.
- Air travel, boarding and lodging expense of service personnel to attend any kind of service or maintenance.

CONDITIONS THAT WILL VOID & INVALIDATE WARRANTY

- Failure to abide by the warranty conditions, unless otherwise given in writing by ELGi, will make the warranty void.
- Repairs carried out on the package without the prior authorisation by ELGi.
- Usage of non-genuine spare parts.
- Nonconformity to ELGi's operating instructions, specifications, guidelines, maintenance and service instructions.
- Equipment conditions as a result of normal wear and tear, abnormal and unusually harsh operating conditions, wilful misuse and negligent use of equipment, accidents and shipping damage.
- Customisation of ELGi supplied compressor package without written consent from ELGi.
- Re-installation of compressors from one location to another unless otherwise recertified by ELGi authorised personnel.
- If compressor is not commissioned within 6 months of receipt unless otherwise recertified by ELGi authorised personnel.
- If there are any dues in payment towards purchase of equipment, service and spares beyond the agreed payment schedule.

LIMITATION OF LIABILITY:

- ELGi shall not be liable for any loss of profit, loss of production, loss of income or contract, loss of goodwill, or for indirect or consequential or incidental loss or damage of any kind whatsoever.
- In no event shall ELGi be liable for any claims or loss having a value higher than the original purchase price of the product.
- ELGi reserves the right to alter or terminate the warranty programme for any part or units not already covered under this policy.

FORCE MAJEURE:

ELGi is not liable for failure to perform the company's obligations if such failure is as a result of acts of God (including but not limited to fire, flood, earthquake, storm, hurricane or other natural disaster), war, invasion, act of foreign enemies, hostilities (regardless of whether war is declared), civil war, rebellion, revolution, insurrection, military or usurped power or confiscation, terrorist activities, nationalisation, government sanction, blockage, embargo, labour dispute, strike, lockout or interruption or failure of electricity or telephone service.
