Dear Sir/Madam,

With reference to your enquiry, we are pleased to submit our offer for the **ELGi Lubricated Screw Air Compressor with Accessories for Air Compressor** system along with its technical specifications.

ELGi compressors are precision-engineered to deliver reliable performance, ease of maintenance, and compliance with international CE, ASME, and UL standards. They high energy efficiency, offer low operating costs, compact design, enhanced safety, and minimal noise levels, with options for remote monitoring and report generation.

The compressor is easy to install and designed for long-term, dependable operation across a wide range of applications.

We remain at your disposal for any further information.

Yours Sincerely,

Kasadara 6 | ELGi Engineer

About ELGi

Elgi Equipments Limited is a global air compressor manufacturer renowned for its extensive range of innovative & technologically advanced compressed air systems.

Committed to maximizing customer productivity and minimizing ownership costs, ELGi offers customers a comprehensive range of compressed air solutions designed to enhance energy efficiency and superior power performance.

The product offerings span oil-lubricated and oil-free rotary screw air compressors, oil-lubricated and oil-free reciprocating air compressors, centrifugal air compressors, dryers, filters, downstream accessories, and IOT solution for 24x7 remote monitoring.

With a portfolio of over 400 products, ELGi caters to a wide range of applications across industries. For more information about the products, please visit www.elgi.com

Product Specification

ELGi Lubricated Screw Air Compressor - EG 45-13 V

SCREW AIR COMPRESSOR

Product	EG 45-13 V
Description	Specifications
Compressor model	EG 45-13 V
FAD* (Capacity)	220 CFM
Maximum working pressure	13 bar (g)
Normal working pressure	12.5 bar (g)
No. of stages	1
Cooling system	Air Cooled
Main motor Nominal rating	45.0kW (60.0hp) Normal Rating with SF1.15 Continuous duty
Starter	Variable frequency drive
Dimensions	1910 X 1310 X 1755 mm
Weight of the package	1277 kg
Nominal Power supply	400V (+/-10%), 50Hz (+/-5%), 3 Phase
Type of Motor	3 Ph TEFC Squirrel cage Induction Motor
Insulation protection	Class F & IP 55
Main motor efficiency / Class	IE3

*At normal working pressure, All the data above are as per ISO 1217, Annex C

Why ELGi is Your Ideal Partner

Reliability That Delivers

Proven high-reliability design backed by **unmatched warranty** and a global service network guarantees maximum uptime.

Efficiency That Saves

Energy-saving, **green products with low SPC** reduce operating costs and deliver the **lowest carbon footprint** for sustainable operations.

Maximized Uptime

ELGi's reliable engineering, responsive service support, and high equipment availability help customers minimize downtime and keep operations running continuously.

Built for Harsh Environments & Safe Operations

Rugged, low-noise, and workplace friendly designs ensure reliable performance in harsh industrial environments while enabling safe and efficient operations.

Future-Ready Technology

AIR ALERT remote monitoring and Neuron IV/N4 controls enable seamless Industry 4.0 integration for smarter operations.

Complete Solutions

From compressors, air treatment systems to storage and piping, ELGi offers end-to-end solutions backed by robust service.

Factory air demand is constantly fluctuating, yet over 70% of compressors in use are fixed-speed machines designed for steady output—resulting in energy waste, frequent cycling, and unstable performance. **ELGi Demand=Match** transforms fixed-speed compressors with dynamic intelligence that automatically adjusts delivery to real-time plant demand by smartly re-circulating airflow inside the compressor, ensuring delivery always equals demand.

Scope of Supply

Package Enclosure	Acoustically engineered rigid enclosure designed to house and protect all integrated subsystems, ensuring superior noise suppression, safety, and long-term reliability.
Drive System	- High-efficiency IE3 / IE4* TEFC main motor with Class-F insulation. - CE-certified Electrical and Instrumentation panel with advanced safety and Control. - Star-Delta (Wye) starter for the main motor to reduce starting current. - DOL starter with contactor for cooling motors.
Air Inlet System	- Two-stage high-capacity air filtration system with visual Clog indicator. - Pre-cleaner for heavy-particle removal to extend airtend and Consumable life.
Compression System	Highly efficient airtend with n-v profile rotors.
Air/Oil Separation System	- CE certified tank built for highest safety levels with 3 stage air oil separation that helps to achieve <1 ppm. - Spin-on air-oil separator element (EG11-EG22) / Cartridge type air-oil-separator element (EG30 – EG75).
Discharge System	Moisture separator with zero loss drain valve.
Cooling System	High-efficiency large surface split-type coolers designed for Max of 50°C ambient conditions.
Lubrication System	Robust spin-on oil filter engineered for longer operating life and superior system protection.
Controls System	- Neuron IV controller with intuitive 7" TFT display. - RS-485 connectivity for Industry 4.0 DCS integration (MODBUS). - Built-in compatibility with ELGi Air~Alert IoT device.(EG18-EG75)

In built Air~Alert

Air Alert is an IoT-enabled monitoring and alert system which Improves energy efficiency on operating performance, improves Uptime with on-time service alerts in addition to predictive failure alert and 24/7 remote monitoring.

Terms & Conditions

The above prices are for supplies on ex-works

1. **Packing and forwarding** shall be **2%** on the basic value of the order.
2. **GST:** This sale will attract GST at the rates prevailing on the date of dispatch. The present prevailing rate against each equipment is as mentioned in the price schedule.
3. **Freight Condition** shall be **PAID - DOOR DELY CC ATTACHED Transporter: OM LOGISTICS Charged at: ₹ 10,000.00**. The transporter shall be arranged either by the purchaser or by ELGi. Any preference of transporter needs to be informed to the factory at least 5 days in advance of the shipment date. GST on freight charges shall be levied at the same rate of tax charged on supply.
4. **Transit Insurance** shall be arranged by the Purchaser. ELGi shall notify the concerned regarding the dispatch details that will enable you to arrange Insurance. If purchaser already has insurance, it shall be indicated at least 5 days before scheduled shipment date.
5. **Statutory information:** Please advise the GSTIN information in your purchase order.
6. **Terms of payment: 100% ADVANCE**
7. **Delivery: 0**, ex-works. This delivery shall reckon from the date of receipt of your clear and firm order with advance or date of approval of the GA drawing, whichever is applicable. Heat recovery system lead time is 12 weeks
8. **Consignee:** The consignment will be dispatched on "selves" basis with special instruction to the transporter to door deliver the consignment against the original copy of L/R.
9. **Supervision of erection and commissioning:** ELGi shall depute trained personnel for supervision of erection and commissioning. Beyond 2 visits shall be on chargeable basis as per standard norms and conditions, for which we will submit a formal quote at later stage. Service Tax shall be extra as applicable.
10. **Validity:** The offer is valid for a period of 45 days from the date of offer.
11. **Price Escalation:** Notwithstanding Point No 11, in the event of significant delay or price increase of material, equipment or energy occurring before confirmation of the order or at any time during the performance of the contract through no fault of ELGi, the contract price, time of completion or contract requirements shall be equitably adjusted. A change in price of an item of material, equipment or energy will be considered significant when the price of an item increases by more than 5% between the date of this offer and date of supply and/or installation and/or commissioning. We

ELGI EQUIPMENTS LIMITED

Elgi Industrial Complex, Trichy Road,

shall negotiate with you in good faith to agree on a mutually acceptable change to the contract price. You shall issue an adjusted contract price prior to the supply.

12. Warranty:

- a) All parts and equipment, unless explicitly mentioned in the uptime document, are warranted for a period of 12 months from the date of start-up or 18 months from the date of shipment from the ELGi factory/warehouse, whichever occurs first.
- b) Warranty is limited to repair/replace of defective parts against manufacturing defects only and does not extend to any consequential liability thereof.
- c) Exclusions: Electricals (except motors and controller), rubber parts, seals, belts and consumables like air filter, oil filter, separator element, lubricant and similar wear and tear parts.
- d) UPTIME Warranty clause as per the attached UPTIME Document.

13. Force majeure: ELGi shall not be under any liability to the purchaser for any failure to perform any of the obligations under the contract where it is prevented by i) situations beyond its reasonable controls ii) acts or omissions of the purchaser. If the performance of the contract is prevented by this clause for more than 120 days, then either party (except where delay is caused by the purchaser, in the event only company) upon 30 days written notice may terminate the contract with respect to the unexecuted portion, where upon the purchaser shall promptly pay the company its termination charges determined in accordance of the company's standard accounting practices upon submission of invoices thereof.

14. Terms: The terms of this offer, once accepted, shall primarily govern the contractual relationship between us. Any contrary terms contained in any purchase order or any other correspondence or document, past, present or future, shall be null and void and have no effect whatsoever, unless the same has been expressly agreed to in writing and signed by our authorized representative.

We appreciate your interest in our product and are confident that we will be able to satisfy your requirement. As the next step, I request your time for a techno-commercial discussion on the offer as per your convenience.

Uptime Warranty

ELGi warrants that its air compressor product and its components will perform as per their specifications, for the periods of time indicated below when used, serviced and maintained in accordance with ELGi's instructions and specifications. If the ELGi product or its components fail to perform as warranted, ELGi will, at its option, repair or replace the product or component of the product as indicated and upon the terms and provisions set forth below:

ELGi warrants that the air compressor package will be free of manufacturing defects and bad workmanship.

1.0 Warranty coverage

- 1.1 **Compressor Package:** 18 months from the date of shipment or 12 months from the date of commissioning, whichever occurs earlier, covering both parts and labour.

Compressor Package warranty includes fan motor, controller, all static parts of compressor, sensors and gauges, fittings and fasteners, canopy and canopy parts, electrical, rubber and plastic parts.

Package warranty excludes consumables and all maintenance kits.

- 1.2. **Airend:** 126 months from the date of shipment or 120 months from the date of commissioning whichever occurs earlier, covering both parts and labour. Use of ELGi recommended lube oil is mandatory to avail this warranty.
- 1.3. **Motor, Cooler and Separator Tank:** 42 months from the date of shipment or 36 months from the date of commissioning, whichever occurs earlier, covering both parts and labour.
- 1.4. **Consumables and Maintenance kits:** As per the maintenance / replacement schedule mentioned in the operation and maintenance manual supplied by ELGi along with the compressor package, covering both parts and labour.

2.0 Exclusions

- 2.1 Damages due to abnormal operating conditions such as high ambient temperature, excessive dust, dirt and humid operating conditions.
- 2.2. Damages caused by the usage of cooling water not meeting the ELGi recommended specifications (applicable for water cooled units).
- 2.3. Failures resulting from improper electrical wiring or connections outside the compressor.
- 2.4. Damages caused by the application of abnormal or incorrect power supply or accidents.
- 2.5. Failures caused by negligent use, willful abuse or misuse.
- 2.6. Repairs or services not carried out by ELGi or its authorized service provider.
- 2.7. Compressors used as rental equipment are excluded from the scope of warranty.
- 2.8. Labour charges incurred for regular scheduled maintenance activities.

3.0 Terms and conditions of warranty

Warranty will be applicable only if:

- 3.1. The compressor package is installed as per ELGi recommended guidelines.
- 3.2. Initial commissioning of the compressor is carried out by ELGi or its authorized distributor/dealer.
- 3.3. The warranty registration is done by submitting the commissioning report/warranty card to ELGi within 15 days of commissioning.
- 3.4. ELGi's genuine spares, consumables and lubricants are used at all times.
- 3.5. All repairs of a warranty nature is completed by ELGi or an ELGi authorized service provider.
- 3.6. Maintenance instructions and schedules as detailed in ELGi's operation and maintenance manual are followed.
- 3.7. All warranty complaints are registered with ELGi's Customer Care System (CCS) within 24 hours.
- 3.8. The on-going servicing and maintenance of the compressor package is performed by an ELGi authorized or ELGi trained personnel. Customers having sufficient resources for servicing the compressor package must produce detailed maintenance logs and parts invoices upon request from ELGi.
- 3.9. The compressor package is put into long term storage, if kept idle for period longer than 6 months, as per instructions in ELGi's operation and maintenance manual.
- 3.10. The customer and/or ELGi authorized service provider is obligated to keep all copies of maintenance records and proof of purchase of consumables and spare parts during the warranty period.
- 3.11. Customer maintains the following documents and produces the same to ELGi if requested prior to making or along with any warranty claim.
 - i. Copy of signed warranty document
 - ii. Copies of maintenance logs
 - iii. Proof of purchase of ELGi genuine OEM parts and lubricants
- 3.12. ELGi reserves the right to repair or replace a component that is proven to be defective and request return of the defective component for inspection within 30 days of the return request. ELGi will pay the freight for components it requests to be returned.
- 3.13. The warranty policy covers only components as mentioned under scope of this document.
- 3.14. In case, customer wants to avail services of ELGi or its dealer's/distributor's personnel for carrying out regular maintenance work, then the applicable service charges have to be paid by the customer.

ELGI EQUIPMENTS LIMITED

Elgi Industrial Complex, Trichy Road,

Website: www.elgi.com | Toll Free: 1800-425-3544/1800-203-3544 | CIN No: L29120TZ1960PLC000351

- 3.15. Warranty on factory repaired or replaced components shall expire along with the term of this warranty.
- 3.16. The benefits of this warranty apply only to the first commercial user and owner and can not be transferred or reassigned.
- 3.17. The defective compressor or component which is replaced will become the property of ELGi.
- 3.18. Replacement or repair of defective component shall be at the discretion of ELGi only, based on validation of complaint, nature and extent of damage.

4.0 Conditions that will void or invalidate the warranty

- 4.1. Failure to abide by the warranty conditions, unless otherwise approved in writing by ELGi's authorized personnel.
- 4.2. Repairs carried out on the compressor package with out prior written authorization by ELGi's authorized personnel.
- 4.3. Nonconformity to ELGi's operating instructions, specifications, guidelines, maintenance and service instructions.
- 4.4. Equipment conditions as a result of the normal wear and tear, components not being replaced as per ELGi's recommended maintenance schedule, abnormal or unusually harsh operating conditions, negligent use of the compressor package, accidents and shipping damage.
- 4.5. If maintenance or service carried out by a technician is not authorized by ELGi.
- 4.6. Usage of non - genuine spare parts / components and lubricants.
- 4.7. Customization or modification of ELGi supplied compressor package and/or its components without written consent from ELGi.
- 4.8. Re-installation of the compressor package from one location to another unless verified and re-commissioned by ELGi's authorized personnel.
- 4.9. If the compressor package is not commissioned within 6 months of receipt unless otherwise recertified by ELGi's authorized personnel.
- 4.10. If there are any dues in payment towards purchase of equipment, service and spares beyond the agreed payment schedule.
- 4.11. If the customer does not sign service reports.
- 4.12. If the equipment is opened (other than for maintenance as mentioned in the operations and maintenance manual) during the warranty period, without written approval from ELGi authorized personnel.

5.0 Limitation of Liability

Corporate Social Responsibility

Key Technology Launch

ELGi unveiled its latest innovation, the Demand=Match system, at Chennai on September 19, 2025. This breakthrough technology transforms how fixed-speed compressors operate under fluctuating demand by automatically adjusting air delivery to real-time plant requirements through intelligent airflow recirculation.

ELGi Celebrated 13-Year Association with Coimbatore Marathon, Reinforcing Its Commitment to Community Wellness

ELGi proudly marked 13 years as the "Powered By" partner of the Coimbatore Marathon, bringing together over 25,000 participants, including 1,725+ ELGi employees and families, in a shared celebration of fitness and community. Supporting cancer awareness, the marathon directed all proceeds to the Coimbatore Cancer Foundation, while ELGi's fitness sessions at the Marathon Expo further energized participation across age groups.

Technology innovation and a spirit of resilience at ELGi ensure that the Indian national flag flies majestically even in low-wind conditions.

An internal innovation challenge at ELGi sparked creativity, drawing 29 ideas from over 300 employees. From these, six concepts were shortlisted, leading to the development of a custom 110-foot flag mast with powerful blowers and an intelligent rope-guide system that automatically adapts to wind conditions, entirely designed and built in-house by the ELGi team.
